This photo directory is published to help our medical staff, administration, nursing staff, and support services integrate house staff and medical students into the activities of Greenville Health System.

Our house staff, medical students and their families come to us from many locations, both inside and outside of the United States. They enrich our community, care for our patients and are the focus of our academic mission.

For additional information and listings regarding Academic Services, visit the website http://www.ghs.org/MedicalEducation or the individual program links within this photo directory.
